PROFESSIONAL EXPERIENCE

Mid Level Full Stack Developer | 2022 – Today

Cyncly

- Working on an online space design product designed for distribution centers, retailers, e-retailers, and enterprise-grade manufacturers. The product aims to enhance customer engagement throughout the entire buying journey, from inspiration to qualification, and from space planning to project acquisition. Develop and maintain the product using technologies such as ReactJS, Typescript, C#, ASP.NET, and MongoDB.

Full Stack Developer | 2021 – 2022

Heap Software

- Development and maintenance of web and mobile apps for multiple clients, ensuring high quality deliveries within the established deadlines.
 - Worked on a few wordpress sites, creating from scratch or giving maintenance by doing some hot fixes.
-
