PROFESSIONAL EXPERIENCE

Mid Level Full Stack Developer | 2022 – Today
Cyncly

- Wworking on the development of an online space design product aimed at distribution centers, retailers, e-commerces and large manufacturers. The goal of the product is to improve customer engagement throughout the entire purchasing journey, from inspiration to qualification, through space planning to project acquisition. I develop and maintain the product using technologies such as ReactJS, TypeScript, C#, ASP.NET and MongoDB. I also use frameworks such as Jest and Jasmine for unit testing and Zustand for controlling states, stores and middlewares.

Full Stack Developer | 2020 – 2022
Heap Software Engineering

- Development and maintenance of web and mobile applications for various clients, ensuring high-quality deliveries within the established deadlines. I also worked on some WordPress sites, creating them from scratch or performing maintenance and quick fixes. Here I used ReactJS, Typescript, NodeJS, NextJS, GraphQL, Tailwind, MaterialUI.

BI Trainee | 2019 – 2020
Brasil Center

- Development and maintenance of business reports using Excel, Power BI and SQL Developer

---
